

## Anne Meixner, PhD: Engineer Development Services

### Assist Engineering Companies in Developing Their Technical Leaders

- Present technical leadership attributes and illustrate with my own experiences
- Coach employees on their technical papers and presentations for internal and external conferences/journals
- Develop an in-house technical leader mentoring program or forum for discussion and development of technical leadership
- Facilitate assessments of technical leader population

### Corporate Training

1-hour live webinars or in person- limit 50 attendees, handouts, and webinar recording provided.

- Presenting Technical Content with Confidence
- Engineering Presentations: Up the Engagement
- Demystifying the Engineer Career Path

Or

- Demystifying your travels in technical career growth
- Getting to Present

Engaging Engineering Presentations: 3-hour training on creating effective engineering presentations within the work environment, can be broken up into 3 1-hour segments.

Getting to Present: an intensive 6-week course on the process for technical conference papers and presentations. Each week includes a 1-hour training and 2-hour practicum/working session.

### Traveling the Technical Trail Membership

Membership subscription to regular articles germane to engineers on the technical path.

More information can be found [here](#).
